

## Safe and Secure TV Channel's Current Program Line-Up

Winter, 2008

### Living the Safe Life

In each episode, we educate and inform consumers of all ages on how to create and maintain a safe and secure environment for themselves and their families — at home, at school, during

recreation, and in the workplace. Explore the hidden secrets of the everyday in this fascinating series!

### Travel Smart, Travel Safe

Each episode features segments on exciting travel destinations, along with tips on how to select secure tourist attractions, safe lodgings, and safe, reliable modes of transportation. Our

cameras take viewers around the globe, but with our feet firmly grounded in the realities of an insecure world!

### Keeping Our Children Safe

Safe and Secure TV Channel has partnered with leading child safety associations to help instruct families on how to keep their children safe in all kinds of situations, both typical and extraordinary!

Our experts demonstrate that with a little know-how, every parent or adult supervisor can keep the children in their charge safe from harm.

### The Security Pioneers

We take viewers behind the scenes of companies — both large and small — that help protect us in our everyday lives. Featured companies range from those providing security personnel and services,

to firms that make the tools and equipment for security companies, public safety officials, and government organizations. Each episode will leave viewers exclaiming, “I never knew that!”

### Are You Prepared?

Wherever viewers live, they face the possibility of a natural disaster. Hurricanes, floods, tornadoes, earthquakes, even mudslides, sinkholes, or volcanoes — we show what to look out for and

how to react when Mother Nature loses her cool! And we don't forget less visible threats: we also cover the threat of epidemics such as flu viruses, contaminated food supplies, plus other environmental issues both local and national that call for a solid readiness plan.
