What is the TSS Escrow Account Reconciliation Service?

It is a professional service designed to carefully and accurately reconcile your TitleExpress escrow accounts and provide you with reconciliation reports, management reports, and efficiency recommendations.

How and when is the service performed?

The service may be performed in your office or, depending on your internet or dial-up connectivity, via remote methods. Scheduling is flexible and dependent on the availability of appropriate bank statements.

Who performs this service?

The service is provided by experienced professionals with extensive TitleExpress expertise and backgrounds in underwriter environments, auditing, and quality control.

What are the benefits?

Timely and accurate reconciliations place you in better control of your business, identify problems before they turn into crises, and mitigate the uncertainty and stress of underwriter audits. These important factors can substantially reduce costs. Moreover, the combination of TitleExpress escrow reconciliation expertise and a "neutral set of eyes" looking at your accounts offers you efficiencies and a level of assurance that is unsurpassed.

What does it cost?

The service is billed at an hourly rate plus expenses such as travel and document shipping services, if such services are necessary.

How do I get started?

Call 888-268-0422 and we'll forward our Escrow Account Reconciliation Service Agreement to you. Once executed, we can schedule your first reconciliation session, either onsite or online, or put you in touch with a TSS expert to help you with your questions.
