

MeetingPlace For Placement Only

Latitude's voice/data e-conferencing solution, MeetingPlace, is a real-time collaboration tool closely integrated with Messaging. USi's e-conferencing service integrates voice and data conferencing capabilities and leverages the capabilities of Microsoft Outlook to schedule meetings, invite participants, and join conferences from any location in the world. MeetingPlace is a core technology that provides the tools for your entire organization to speed decision-making by allowing anyone, anytime, anywhere to meet, talk, share, and decide.

Conferencing and Collaboration powered by MeetingPlace, Product Architecture Overview

Heading For Placement Only

Whether in a single building or in geographically dispersed locations, USi's e-conferencing solution, powered by MeetingPlace, delivers real-time voice and data collaboration capability that can be used internally, and also provides a secure collaboration tool for working with external partners, customers, and vendors. All this, with the same convenience, reliability, and performance that comes with the USi hosted Exchange service.

USi will deliver the power of MeetingPlace to include:

- Microsoft Outlook integration
- E-mail integration
- Browser-based scheduling interface
- Integrated voice recording
- Integrated Net/Meeting and telephone conferencing
- RealAudio for conference playback
- All for a flat monthly fee
